

Suitable for mini automobile insert fuse

Rated current: 15AMP

Flame Retardant Grade: 94V-0

Internal terminals ACN-1, ACN-2, ACN-3 (plug-in force after 6 taps is greater than 6N)

1. Wire: 1015-16AWG

2. Heat shrinkable casing:  $\Phi 6$  125 degree 600V

3. Terminals: blue middle terminal

4. Product model: GF-70BD (GFEFUSE)

Remarks:

No seamless burr in hot-bonding is clean, the terminal is pressed firmly without breaking line, no short circuit, breaking circuit, dislocation, good conduction, and no damage to the line skin.
